EVENT IDEA-"BLANK CODING"

PRESENTED BY PARALLEL COMPUTING CLUB

NIT TRICHY

BLANK CODING

- SO BASICALLY THE IDEA BEHIND THIS IS-

  GIVE A SIMPLE CODE TO WRITE WITH THEIR MONITORS SCREEN SWITCHED OFF AND THE PERSON WHO COMMITS MINIMUM NUMBER OF ERRORS (& TO MAKE IT MORE INTERESTING WE CAN GIVE THEM A TIME FRAME WITHIN WHICH THEY HAVE TO COMPLETE THE TASK)AND THAT IS HOW WE WILL DECLARE THE WINNER FOR THAT PARTICULAR ROUND.

  WE CAN HAVE 3 ROUNDS (BASED ON THE DIFFICULTY LEVEL OF THE QUESTION).

VENUE

- IT CAN BE BASED ON THE AVAILABILITY OF THE SPACE .

- IT CAN BE CONDUCTED IN A CLASSROOM OR BARN HALL .

- IT ALSO DEPENDS ON THE NUMBER OF PARTICIPANTS.

VISION

- VISION BEHIND PLANNING THIS EVENT IS TO PROVIDE AN OPPORTUNITY TO THE CANDIDATES TO TEST THEIR READINESS FOR SOLVING THE TECHNICAL PROBLEMS THAT COULD BE FACED IN THEIR PROFESSION.

- STUDENT WILL BE INTERESTED IN SOLVING THE PROBLEMS AND EXHIBIT THE

PROGRAMMING SKILLS ACQUIRED.

BUDGET

- THE BEST PART ABOUT THIS EVENT IS THAT WE WILL REQUIRE LAPTOPS (THAT WE CAN ARRANGE OURSELVES) FOR CONDUCTING THE ROUNDS.

- WE WILL ONLY NEED MONEY FOR THE PRIZES TO BE GIVEN TO THE WINNERS.

(AND THAT CAN ALSO BE SORTED WITH THE HELP OF SPONSERS .)

PEOPLE NEEDED & PUBLICITY

I THINK OUR CLUB MEMBERS WILL BE ENOUGH FOR THE EVENT PLANNING .

AND FOR THE PUBLICITY WE CAN MAKE POSTERS AND ALSO POST ON THE OFFICIAL INSTAGRAM HANDLE OF PCC.
